EDUCATION

Telecom Paris / Institut Polytechnique de Paris — Paris, France | 2025 - 2027

MSc of Engineering, double degree - Master 2 Interaction, Graphics and Design (IGD)

- GPA 3.95/4 — Eiffel Excellence Scholarship, French Ministry for Europe and Foreign Affairs
- Specializations: Human-Computer Interaction & 3D Graphics (IGR); Image, Vision, Machine Learning (IMA)
- Ip Paris: Master 2 **Interaction, Graphics and Design (IGD) : Courses in HCI, Virtual Reality and Advanced Computer graphics**

Universite Saint-Joseph, ESIB — Beirut, Lebanon | 2021 - 2025

Engineering Degree, Software Engineering

- Ranked 1st of 102 software engineering students, GPA 3.89/4
- ESIB-USJ Excellence scholarship / Alexis & Habib Foundation scholarship / LIFE Nurture scholarship

TECHNICAL SKILLS

XR & 3D Graphics: Unity, C#, OpenGL, GLSL, shaders, ray tracing, shadow mapping, geometry processing, VR interaction design

HCI & Design: Qt, UX research, prototyping, usability testing, human-centered design

Programming: Python, C++, Java, Kotlin, C#, JavaScript, HTML/CSS, Jetpack Compose

Machine Learning & Vision: PyTorch, deep learning, image classification, medical imaging

Data & Systems: SQL and NoSQL databases, PostgreSQL, Elasticsearch, Supabase, FastAPI, Linux, Git, Arduino, MATLAB/Simulink

PROFESSIONAL EXPERIENCE

Anghami — Beirut, Lebanon | June - August 2025

Android Developer Intern — leading music streaming platform in the Middle East and North Africa

- Migrated 3 legacy Android screens from XML layouts to Kotlin Jetpack Compose, modernizing the UI architecture
- Collaborated with a team of senior engineers through code reviews and Git-based workflows

Invigo — Beirut, Lebanon | June - August 2024

Operations Intern

- Resolved technical support incidents across Linux, PostgreSQL and Elasticsearch environments
- Documented root causes and escalation procedures for recurring incidents

PROJECTS — more projects and details in my portfolio: karenkhoul.github.io/portfolioKaren/

Guided Research Project — Human-Computer Interaction | 2026 – Present

- Ongoing HCI research project as part of the Master 2 involving literature review, prototyping and user evaluation, under Prof. Perrault.

The Lost Phoenician Artifact — VR game , [details in portfolio](#) | 2026

- Built a VR experience in Unity and C# integrating passive haptics and movement gain redirection

Image classification: white blood cells , [details in portfolio](#) | 2025 - 2026

- From feature extraction, to fine tuning CNNs and combining models to get the best score.

Life Is Good — computer graphics engine , [details in portfolio](#) | 2025

- Implemented geometry processing, ray tracing and shadow mapping from scratch in C++, OpenGL and GLSL

Mingle — human-centered dating app , [details in portfolio](#) | 2025

- Conducted UX research with 50 participants, designed and produced interactive prototypes of the dating app.

SHIELD — women's safety application for public spaces | 2023

- Won 1st place at the RESCIF International Entrepreneurs Summer School competition

VOLUNTEERING

Volunteering with Entraides Citoyennes and Entourage, PARIS | 2026 – present

- Supporting people experiencing homelessness by distributing essential supplies and providing social support. (Maraudes)

Board member in Google Developer Student Club | 2023 - 2025

MMKN NGO , Beirut, LEBANON | 2022 – 2025

- Program Coordinator and Tutor for Grade 9 students

Texas A&M University , QATAR | June 2024

- Participated to the AI Summer School during 2 weeks alongside other classmates.

LANGUAGES

Arabic (native) | French (fluent) | English (fluent, TOEIC 990/990) | Lebanese Sign Language (intermediate)
